The analyzes in this report and intended to verify the conformity of fertilizer products in the European Union according to Regulation (EU) 2019/1009 and RD 506/2013 of June 28, have been performed in a reliable and reproducible manner, as they have been carried out in accordance with standards or parts of harmonized standards whose references have been published in the Official Journal of the European Union and in Annex VI of RD 506/2013 of June 28, following internal procedures indicated in the field "methodology". Some of these tests may follow equivalent or alternative methods backed by validation and intercomparison tests, if they do not follow or do not have a harmonized standard available.
